

Teen Night : Glass Magnets

Supplies

- Bag of clear glass gems
- Circle Craft Punch, 5/8-inch (use a larger punch if you are using larger glass gems)
- Illustrations
- Small, round magnets
- Mod Podge
- E6000 Multi-purpose Adhesive
- Toothpick

Teen Night : Glass Magnets

Instructions

- Find an illustration you like, then punch it out using the circle craft punch.
- Use Mod Podge to glue your punch-out onto the flat side of your clear glass gem. Once glued, add some Mod Podge to the back as well.
- If you are using thin paper, punch out a plain piece of white paper and glue on top of illustration. That way you won't be able to see the magnet through the glass.
- Use E6000 Multi-purpose Adhesive to glue magnet to the back of the glass gem. (I used a toothpick to spread the glue.)
- Let glass magnets dry overnight.
