

Kid's Class - How to Make a Lego Snow Globe

Supplies

- Snow globe jars
- Iridescent white glitter
- Glycerin
- Christmas and winter-themed LEGOs or Christmas miniatures
- Distilled water
- Hot glue gun
- Super Glue
- Green and red toy block tape
- Scissors

Instructions

- Remove any stickers and wash your snow globe jars in warm soapy water so they are free of dust and residue. Allow the jars to dry completely before moving on.
- Next, use a high-temperature glue gun to secure holiday-themed LEGOs or Christmas miniatures to the plug of the jar.
- Pour 1 tablespoon of iridescent glitter and 2 tablespoons of liquid glycerin or clear glue into the jar.

Instructions

- Fill the remainder of the jar with distilled water, leaving 1-inch of headspace for the plug. Unlike tap water, distilled water is free of contaminants and will help keep your jars mold-free.
- Insert the plug into the globe, then twist the cap over the plug. If you have small children, you may wish to hot glue the cap to the jar.
- Finally, secure a strip of toy block tape around the cap of the globe.
