

Welcome to Ready, Set, School!

EAGLE PUBLIC LIBRARY

Virtual Bookflix Edition

Today we will be learning about Measurements!

And how to make a Bracelet using Measurements!

Let's begin by reading these Bookflix!

The screenshot displays the Bookflix website interface. At the top left is the 'BOOKFLIX' logo with a home icon. A top right bar shows the current selection: 'You're in: Inch by Inch and How Long Is It?' with a user profile icon. A left sidebar lists navigation options under 'Start' (Watch the Story, Read the Book), 'Puzzlers!' (Word Match, Fact or Fiction?, Which Came First?), 'Dive Deeper' (Explore the Web, Meet the Creators), and 'ABCs and 123s'. The main area features two book cards. The first card, 'Inch by Inch' by Leo Lionni (Weston Woods/Scholastic), includes a 'Watch the Story' button. The second card, 'How Long Is It?' by Donna Loughran (Rookie Read-About Math), includes a 'Read the Book' button.

You will need these Items to Make a Bracelet

Yarn or String

Beads of any kind

Scissors

A Ruler

Step 1

- **Unravel** the string to a long amount.

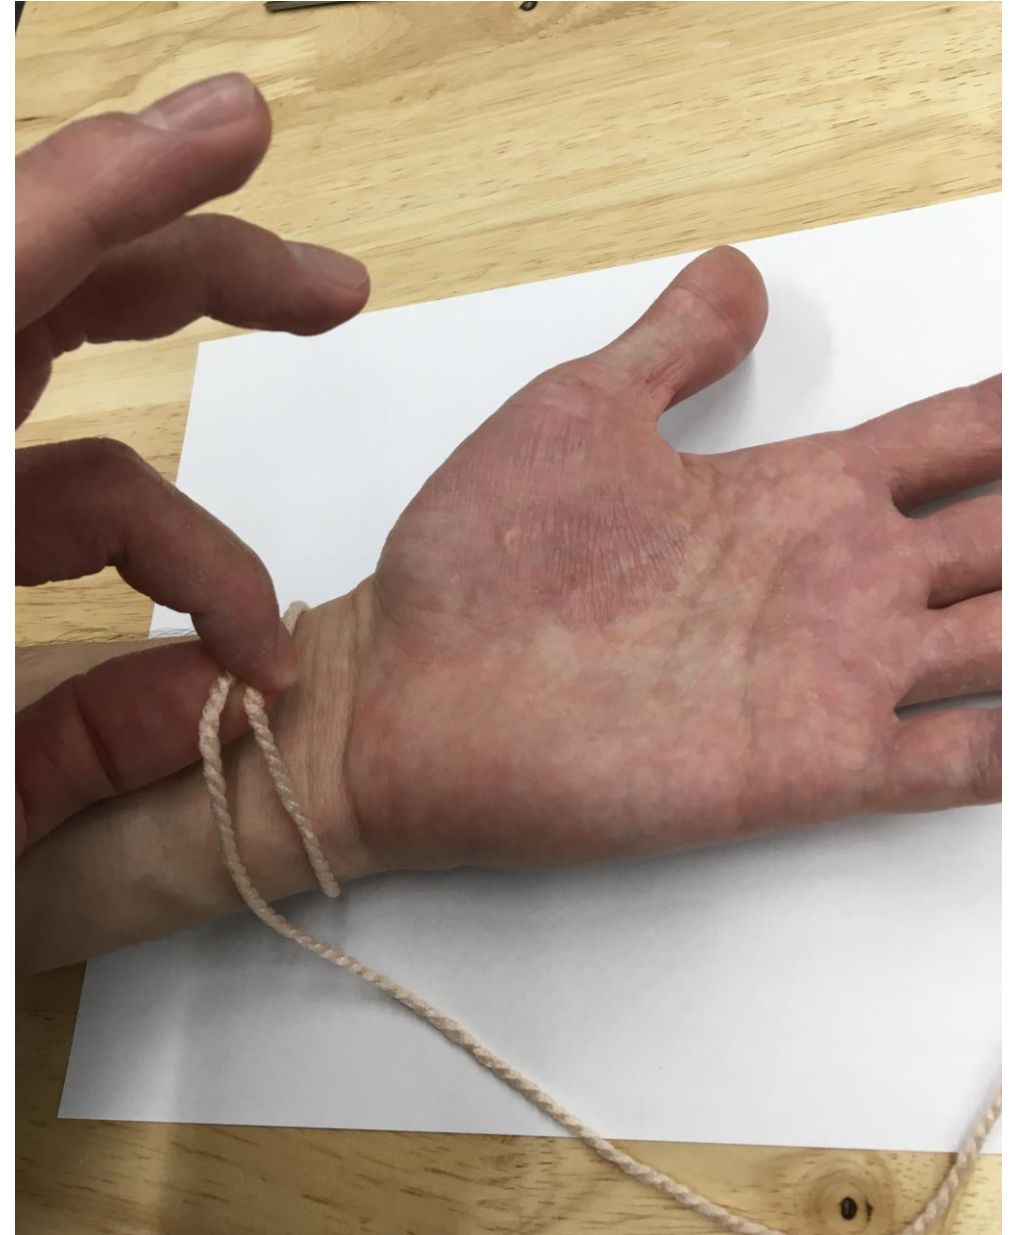

Step 2

- **Wrap** the string around your wrist.

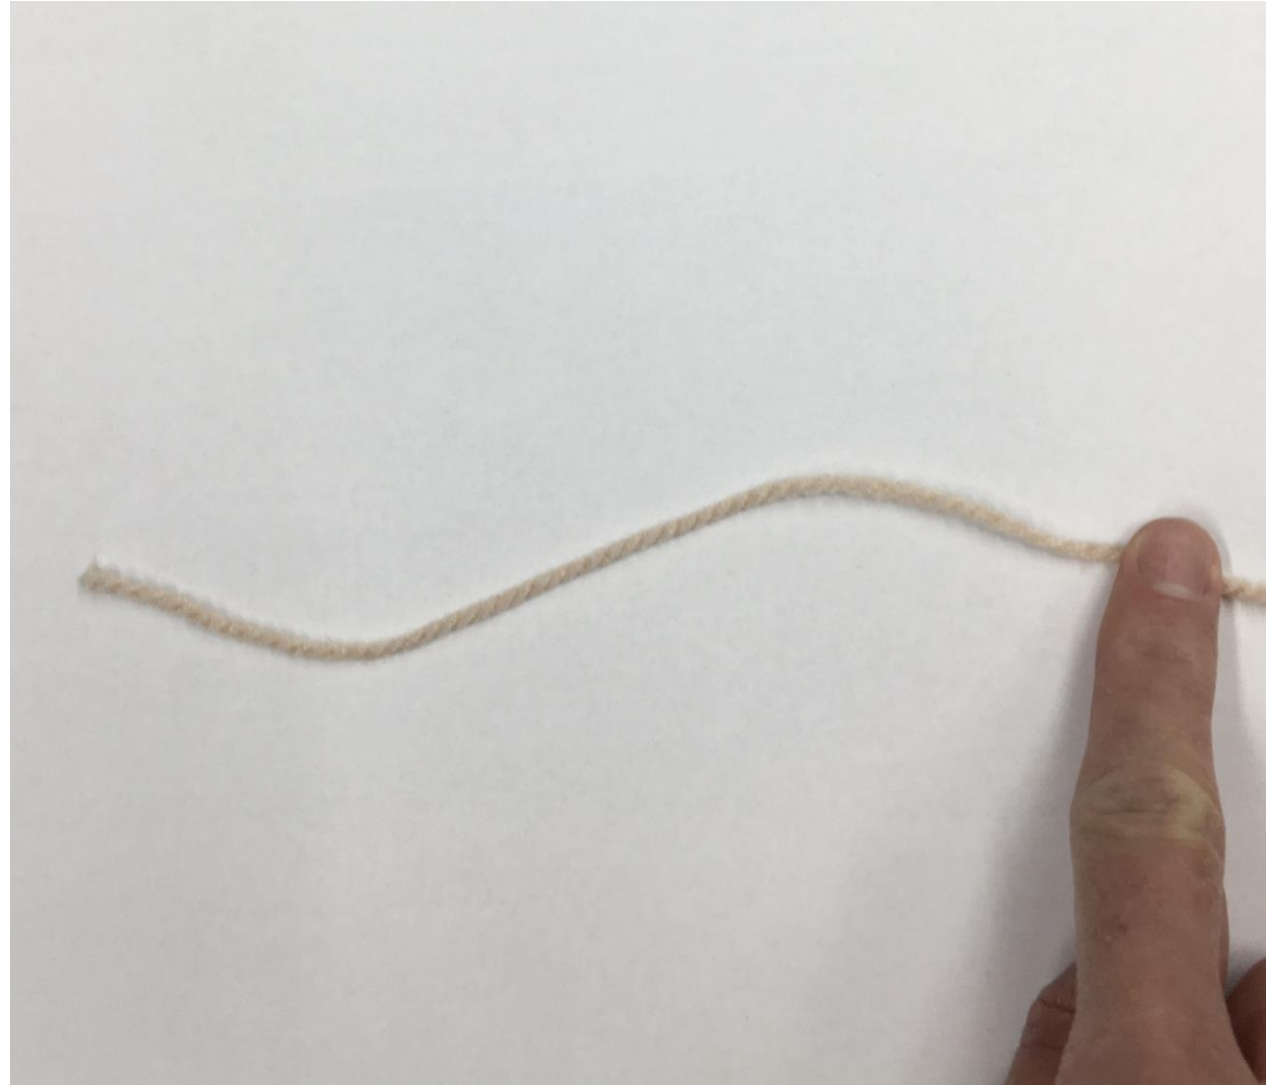

Step 3

- **Pinch** the string with your fingers where the **end of the string** meets the string that's **wrapped around your wrist**.

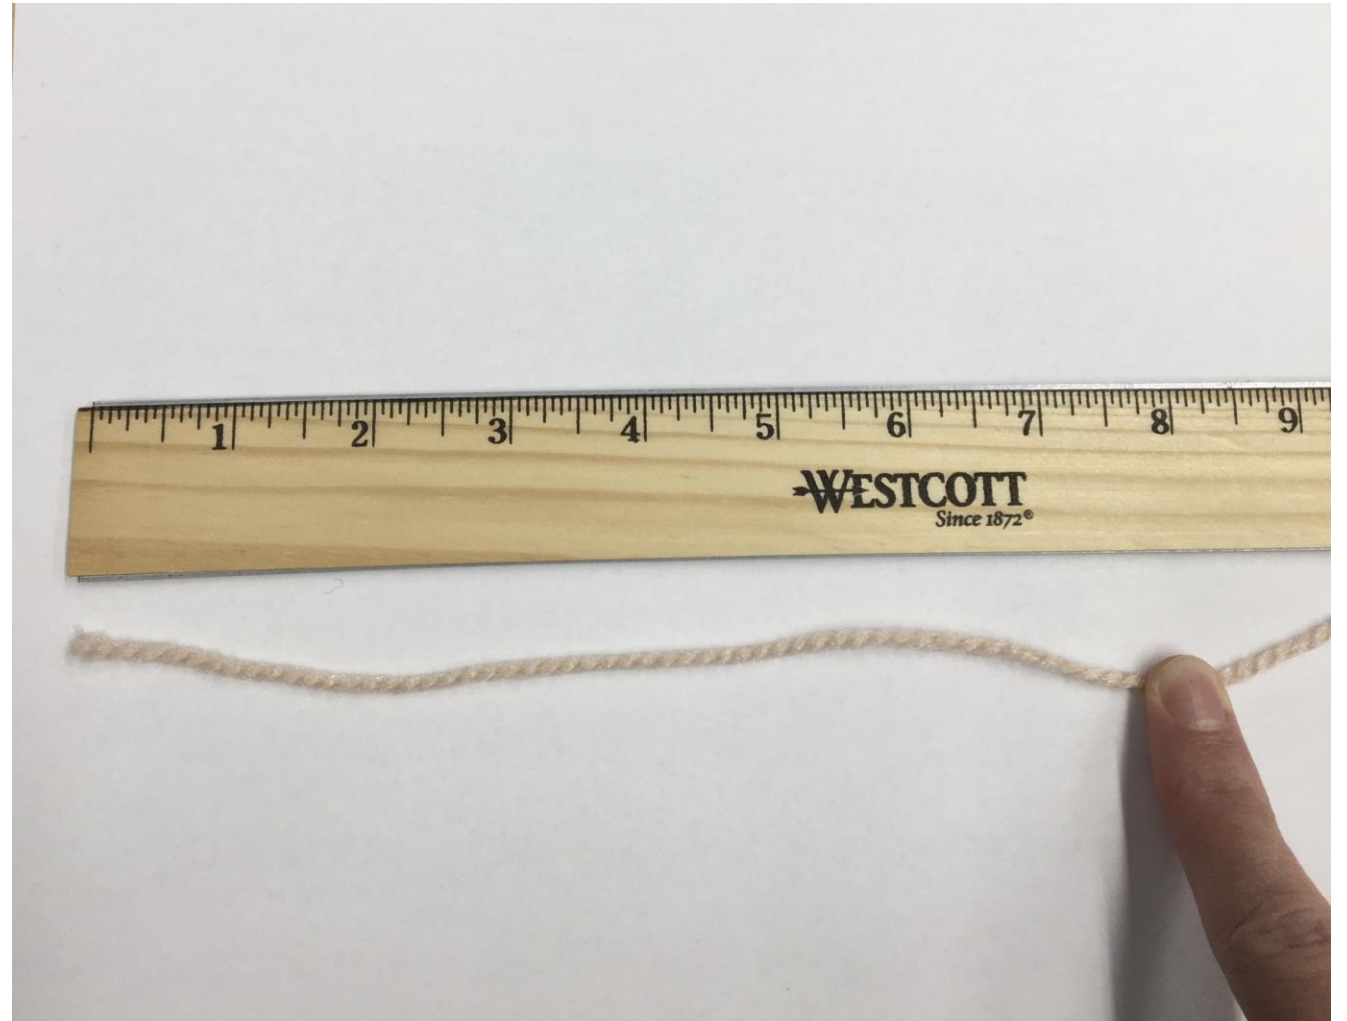

Step 4

- **Place** the string onto a table with your finger remaining on the **part of the string** that the **end touched**.

Step 5

- **Place** the ruler next to the string you have laid out.
- **Take note** of how long the measurement is. You may also **mark this with a pen** if you'd like! 8 inches, WOW!

Step 6

- **Cut** the string **1 inch** past where you marked the string, 9 inches for me!

Step 7

- Now that you have your string cut, **add some beads** to the string **using the holes** on the beads!

Step 8

- Tie the ends of the **Beaded String**.
- **Enjoy** your custom bracelet!

Thanks for coming by, see you next time!
