

T-Rex Tea

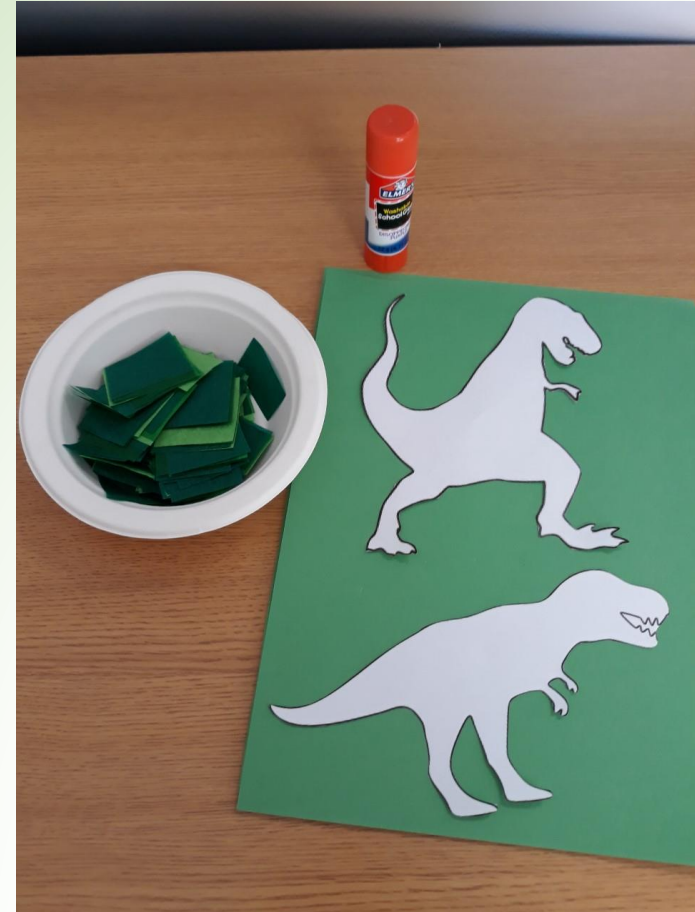

With Irene

First, we're going to make a tissue paper t-rex!

Supplies needed:

- Template (printable)
- Tissue paper (cut into squares)
- Construction paper
- Glue
- Scissors
- Googly eyes (optional)

Instructions

1. Print and cut out a t-rex template or draw your own outline.
2. Glue the template to the construction paper for added strength.
3. Crinkle up squares of tissue paper and glue inside the template until fully covered.
4. Add a googly eye or two!

Next, try your skills at teacup toss!

You'll need:

- A teacup or mug
- Ping pong balls

Instructions

- Place the mug some distance away from you and see how many ping pong balls you can get in!
- Compete against your siblings or friends and, once it gets too easy, try moving your teacup target farther away.
